BlueSonicRemoval.com

Commercial • Government • Institutional Project Support

CAPABILITY STATEMENT

COMPANY OVERVIEW

Blue Sonic provides construction support, demolition, debris removal, logistics, facility-improvement coordination, and project support for commercial and government clients. Our approach emphasizes responsive communication, practical field execution, and coordination of qualified specialty subcontractors.

CORE CAPABILITIES

- Selective demolition and interior tear-out support
- Construction debris removal, cleanouts, hauling, and site clearing
- Construction and field-support coordination
- Roofing project coordination and replacement support
- HVAC removal, replacement, and installation coordination
- Doors, windows, flooring, and facility-improvement support
- Equipment moves, furniture relocation, material handling, and logistics
- Vendor, subcontractor, scheduling, documentation, and closeout coordination

DIFFERENTIATORS

- Responsive, owner-led communication and coordination
- Flexible subcontractor model for specialty-trade execution
- Combined demolition, cleanup, hauling, moving, and site-support capabilities
- Commercial and government-project focus
- Ability to coordinate multiple scopes through one point of contact
- Small-business positioning with MWBE certification pending

CURRENT BUSINESS DEVELOPMENT FOCUS

Federal Construction Support

Federal construction and facility-support opportunities involving site logistics, demolition support, debris removal, field coordination, and specialty-trade support.

Commercial Site Services

Demolition, cleanouts, debris removal, material handling, moving, logistics, and coordinated project support for general contractors and commercial clients.

Demolition & Cleanup

Expansion of Blue Sonic's capacity to support larger renovation, construction, and facility projects with demolition assistance, debris handling, hauling coordination, and site cleanup.
